CLOCKWISE FROM ABOVE **Voyeurism mural** by textile and print designer Mike Wornack, from £185 per panel, the Abstraction collection at Surface View; Gucci enlisted graffiti artist Trouble Andrew — aka GucciGhost — to tag the facade of its **Fifth Avenue store**; Graham & Brown's Brick Wall Effect Graffiti print wallpaper, £13 per roll; the multicoloured **spray-painted walls** in this room by US designer Philip Thomas — in collaboration with muralist Andrew Tedesco Studios — are a masterclass in playful, bold, and expressive modern art, colliding with classic French gastronomy in Hong Kong's **Bibo restaurant**, created by design collective Substance.
